Sustainable Solutions for Your Success.

Toronto Technical Center

BOOTH 5001

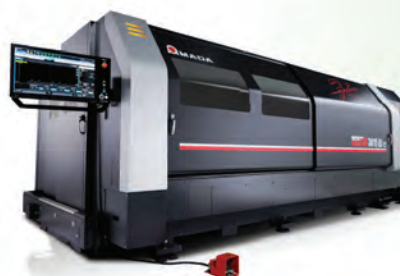

In adherence to the primary section of AMADA's Basic Policy on Sustainability, we are committed to treating people and the global environment with respect. We achieve this goal by reducing CO₂ emissions, promoting the reduction and reuse of waste, and protecting the global environment, including biodiversity in all processes. We also provide environmentally-friendly products and services through our business activities.

Stay In Touch With What's Next.

WELCOME TO FABTECH CANADA 2024

FABTECH Canada provides a unique platform for hundreds of suppliers and thousands of customers dedicated to advancing the metal forming, fabricating, welding and finishing industries to come together under one roof and learn about new products and solutions, attend education sessions and network with industry peers.

On-site Registration

On-site registration is located in the Pavilion inside Exhibit Hall D and in the Mirvish Lobby. Anyone who will be attending the exposition MUST register to receive a badge. Admission to the exposition is free for SME, FMA, AWS, PMA and CCAI members and \$50 for non-members. No one under the age of 16 will be admitted and proof of age may be required.

Registration Hours

Monday, June 10	10:00 AM – 5:00 PM
Tuesday, June 11	7:30 AM – 4:00 PM
Wednesday, June 12.....	7:30 AM – 5:00 PM
Thursday, June 13	8:00 AM – 2:00 PM

Show Location

Toronto Congress Centre | South Building
650 Dixon Road | Toronto, ON M9W 1J1

Show Hours

Tuesday, June 11	10:00 AM – 5:00 PM
Wednesday, June 12.....	10:00 AM – 6:00 PM
Thursday, June 13	10:00 AM – 4:00 PM

About the Event Partners

The FABTECH Canada Event Partners include five leading industry associations; SME, the Fabricators and Manufacturers Association, (FMA), the American Welding Society (AWS), the Precision Metalforming Associations (PMA), and the Chemical Coaters Association International (CCAI).

Membership information can be obtained in the booth of the association or by contacting the association directly.

ABOUT THE SHOW

EVENT SERVICES

ATMs

There is an ATM located in the lobby of the South Building. There is also one located in the variety store beside Harvey's restaurant in the plaza out front of the South Building.

Badge Corrections

Anyone who will need changes to an exposition or conference badge can go to registration located in the Pavilion inside Exhibit Hall D and in the Mirvish lobby.

Badge Pick Up

Pre-registered attendees can pick up their show badge at an ALREADY REGISTERED counter in the Registration Area located in the Pavilion inside Exhibit Hall D and in the Mirvish Lobby.

Baggage Check/Coat Check

Located in the East Wing Lobby.

First Aid

Located in the West Side Main Lobby.

Conference Headquarters/Speaker Lounge

The Conference Headquarters/Speaker Lounge is located in room Safdie.

Hours of operation:

Tuesday, June 11.....7:30 AM – 5:00 PM
Wednesday, June 12.....7:30 AM – 5:00 PM
Thursday, June 137:30 AM – 2:00 PM

Show Management Office

The Show Management Office is located in room Pinsent 1.

Hours of operation:

Tuesday, June 11.....8:00 AM – 5:00 PM
Wednesday, June 128:00 AM – 6:00 PM
Thursday, June 138:00 AM – 3:00 PM

VIP Lounge | Sponsored by: BLM GROUP

The VIP Lounge located in room Waxman is open during show hours to those individuals that have VIP status indicated on their badge.

Exhibitor Lounge

The Exhibitor Lounge located in room Waxman 3 is open during show hours. Exhibitors must wear their exhibitor badge for admittance.

Parking

Parking is currently free of charge. TCC reserves the right to change this policy, without notice, and charge for parking.

GO Transit

GO provides bus service to the Toronto Congress Centre via the Brampton bus service. Please call 1 888 GET ON GO for information or visit gotransit.com for schedules.

Thank You to Our Industry Supporters

Intelligent Fabricating Machines

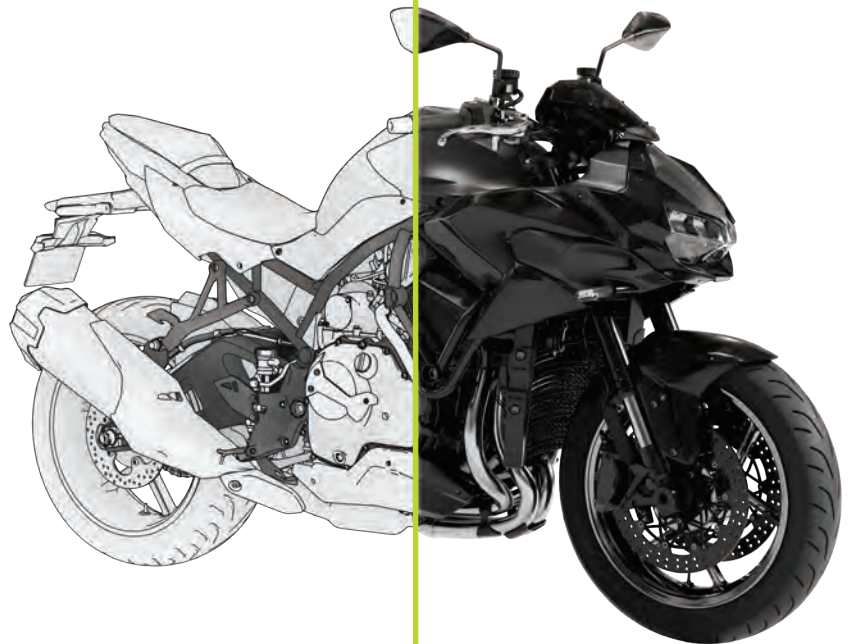

Seamlessly Transition from Design to Parts

BLM GROUP's cutting-edge technology provides a premier solution to seamlessly transition your concepts from design to high-quality parts while enhancing your processes and delivering substantial cost savings through our integrated platforms.

Each machine is equipped with smart technology that intelligently adjusts its parameters to dynamic conditions such as material thickness variation or weld seam size and location, driven by advanced programming and HMI software that increases efficiency and eliminates a trial-and-error approach. Furthermore, you can program, simulate, optimize, plan and monitor your production in BLMelements™ Suite: a single platform that seamlessly integrates multiple machines, processes, and personnel with unparalleled connectivity, elevating your productivity to new heights.

Your Dreams. Realized.

NETWORKING & SPECIAL EVENTS

All events are free and open to all attendees. Keynotes and panel discussions will take place in the Theatre area on the show floor.

TUESDAY, JUNE 11

KEYNOTE PRESENTATION

9:00 – 10:00 AM

Resilient Innovation: Shaping the Future of B2G Manufacturing

Speaker: Roman Shimonov, CEO, Roshel Inc.

In an era where the defense manufacturing sector is constantly challenged by complex supply chain issues and the pressing need for innovation, Roshel Inc. stands out by not only specializing in the production of defense products for governmental organizations but also in mastering a vertically integrated manufacturing process that champions resilience and quality. Our keynote speaker Roman Shimonov will share a strategic approach to overcoming global supply chain disruptions, leveraging their comprehensive control over every aspect of the manufacturing cycle. Moreover, his presentation will highlight the transformative power of embracing a diverse workforce, including the immense potential of newcomers and refugees, whose unparalleled motivation and unique perspectives have significantly contributed to their success. Discover how a commitment to innovation, operational excellence, and a socially responsible employment strategy has not only enhanced their production capabilities but also positioned Roshel as a leader in advancing the defense industry's future.

PANEL DISCUSSION

2:00 – 3:00 PM

The Future State of Advanced Manufacturing in Canada

When it comes to the economics of manufacturing, business practices in Canada and the U.S. are not one and the same. Canada is a global leader in advanced manufacturing, which is a key driver of economic growth and competitiveness, as well as a source of employment and innovation. According to NGen, the industry-led organization leading Canada's Global Innovation Cluster for Advanced Manufacturing, fabrication in Canada is undergoing a digital transformation that will enrich the lives of Canadians, deliver better products and good jobs, and generate economic growth. The panel of experts will share the future opportunities for the industry.

WEDNESDAY, JUNE 12

KEYNOTE PRESENTATION

9:00 – 10:00 AM

A Conversation with Eric Lindros

Eric Lindros is one of the most legendary players in hockey history. He was born in London, Ontario, but grew up in Toronto, where he showed his amazing talent and passion for the game. He had a brilliant career that was cut short by injuries and concussions, but he still managed to score 865 points in 760 games. He was inducted into the Hockey Hall of Fame in 2016 and named one of the 100 Greatest NHL Players in 2017. Eric Lindros is a true hockey legend and a Canadian icon. Join us for conversation and meet and greet with this National Hockey League great.

PANEL DISCUSSION | SPONSORED BY: ACCESS MACHINERY

12:00 – 1:30 PM

Women of FABTECH: From Curiosity to Career: How I Found My Place in Manufacturing

Join us for a lively and inspiring discussion with our panelists, who come from diverse leadership backgrounds and roles in the FABTECH industries. They will share their stories of how they discovered their passion for manufacturing, overcame obstacles, achieved success, and learned valuable lessons along the way. This session is interactive and will give you the opportunity to ask questions and learn from their experience. Don't miss this chance to hear from the women who make manufacturing happen!

PANEL DISCUSSION

2:00 – 3:00 PM

Fabrication Manufacturing in Canada: The Benefits and Challenges of Adopting Automation & Robotics

The benefits and challenges of adopting automation and robotics create some challenges for manufacturers. To overcome these challenges and remain competitive in the global market, fabrication manufacturing in Canada needs to adopt automation and robotics technologies that can improve productivity and quality while reducing costs and waste. Automation and robotics are not threats to fabrication manufacturing in Canada, but opportunities to enhance its competitiveness and resilience. By embracing automation and robotics technologies, fabrication manufacturing in Canada can create more value for its customers, workers, society, and environment. The panel will share best practices and case studies from some leading experts in the industry.

9:00 – 10:00 AM

“It’s a Small World”- Building Relationships and Exceptional Project Experiences

Speaker: Sam Barrett, Vice President Preconstruction & Sales, Walters Group

Join us as we explore the interconnected world of design and construction – it’s smaller than you might think. With a rich history spanning over 65 years in designing, fabricating, and constructing steel for commercial and industrial projects across North America, the Walters Group commitment to being a true partner echoes through every bolt and beam. Join us in this keynote as we explore the intricate web of connections within the construction industry, weaving together our journey of innovation and collaboration.

PANEL DISCUSSION | SPONSORED BY:  CONCORD
12:30 – 1:30 PM
Store Fixture Group

How Associations and Employers Can Empower Women to Create New Workplace Cultures

This panel discussion will address the current state of workplace cultures and the unique challenges women face while highlighting the importance of diversity, equity, and inclusion in fostering innovative and resilient work environments. Let’s explore strategies for how employers can implement a supportive atmosphere for women and practical solutions for how professional associations can help support leadership training and mentorship programs.

2024 NEW PRODUCTS

Abicor Booth 12006 iBOTone

The iBOTone cobot can be programmed and operated easily and quickly enough that welding work can be carried out with consistent quality and without downtime, regardless of the batch size.

AccessDurma Booth 8001 Durma BlueBend PB4

The bending force of the Durma BlueBend PB4 is controlled by dynamic electro-mechanical actuators creating a perfect "bending orbit." The "C-shaped" manipulator and centring device are designed to process automatically and manipulate materials with a maximum length of 130 in. (3,300 mm) and height of 10 in. (254 mm).

Akyapak USA Booth 4051 3ADM 1200 THREE SPINDLE 10AXIS CNC BEAM DRILL LINE

The 3 ADM transforms complex operations into efficient processes in the metal fabrication industry. The 3 ADM features a high level of

multitasking capability with powerful 22 kW spindle motors, 500 mm sub-axis, and three drill spindles.

Allredi Blast Canada Booth 7051 (MSB-SERIES) WET BLAST CABINET

Consistently manufacturing and delivering quality dry blast cabinets for 40 years, Mod-U-Blast R&D department with many hours of testing we have produced an excellent line of wet blast units with more to come.

AMADA CANADA LTD Booth 5001 VENTIS 3015 AJe (6kW) Fiber Laser Cutting System

VENTIS utilizes AMADA's revolutionary Locus Beam Control to achieve infinite locus patterns to ensure optimum beam shape control for each specific cutting application.

EGB 1303 ATCe Press Brake

The EGB 1303 ATCe is equipped with a high-performance electric drive system combined with an Automatic Tool Changer and voice command control.

XYZ Routers & WARDJET Waterjets Booth 4073 A-Series

The A-Series is WARDJET's most compact waterjet cutting system. With a footprint of less than 30 ft², the A-Series is ideal for businesses with a limited floor space.

Beveler USA Inc Booth 10074 Stinger 300

Pipe bevelling system Stinger 300 Total working range Ø 36 – 269mm (1.41" – 10.59"). The Stinger 300 pipe beveling machine is designed for portable use in pipe machining operations and it can be used efficiently by a single operator.

BLM Group Booth 3031 LT7 lasertube

The LT7 lasertube features a 3D tilt cutting head that can perform high-precision angular cuts in round tubes, square, rectangle, open profiles, and special sections from 0.5 in. to 6 in., up to 15.5 lbs./ft. It is available with a 3-, 4-, or 5-kW fibre laser.

Bystronic Canada Ltd Booth 7001 ByCut Smart Fiber Laser Cutting Machine

The ALL-NEW flexible ByCut Smart fiber laser cutting machine cuts a range of ferrous/non-ferrous materials precisely and reliably, thanks to high laser power, an optimized cutting process, and smart features. Model 3015 with 15kW will be shown.

ByBend Star 80 Mobile Bending Cell

Profit through speed and efficiency with the Bystronic ByBend Star 80 Mobile Bending Cell -- a compact solution for automated and manual bending that supports today's fluctuating lot sizes and varying part complexities.

Bystronic BySoft Suite

BySoft Suite software: Software for complete sheet metal business digitalization from quote to delivery, boosting customer efficiency.

ByTrans Extended Compact Material Handling

Bystronic's popular ByTrans Extended compact material handling systems yield greater profits through higher machine utilization, process efficiency, expanded operations, and reduced labor costs.

DAVI

Booth 2061
iRoll CNCs

These newer controls offer a smartphone-like experience with a high-resolution touch screen that incorporates interactive 3D graphics. The more advanced systems come equipped with AI to help generate fine-tuned programs, phase programming to maximize throughput, templates for standard and custom shapes, and real-time correction on the machine.

Eagle Lasers

Booth 6073

New iNspire 2.0 Model 1530
Power 30kW

The iNspire has always embodied the pinnacle of innovation, but since this can always reach new heights, We have enhanced the speed, ergonomics and introduced new features to ensure an unparalleled user experience.

Exocor

Booth 11005

Executive PLUS 7018-1

Executive PLUS 7018-1 is a low-hydrogen (H4R) coated electrode used extensively in all industries to weld carbon and low alloy steels complete with ABS and LR approvals.

Extreme Abrasives

Booth 11031

Unidirectional Double-sided Flap Disc

Unidirectional double-sided flap disc engineered and made in Canada by Extreme Abrasives.

Faccin Group

Booth 1000

NEW Faccin® 4-roll Direct Electric-Drive Roller

The new 4HEP-MPE series features rolling speeds up to 32.8 ft/min. Accommodates a maximum plate thickness of up to 1 3/8 in., while also providing a maximum plate length of 10 ft. 35% reduction in operating costs and silent operation by almost 15 decibels

Faccin 4-Roll Double Pinch Plate Roll - 4HEL

Renowned for its versatility, precision, and user-friendly interface, it stands as the most advanced 4-roll pyramidal plate roll available. The 4HEL enables the production of cylindrical ferrules in one pass and simplifies cone bending operations.

Roundo® Premium Angle Bending Machine - R Series

Crafted with precision, this advanced angle roll is specifically engineered to bend steel with a section modulus ranging from $W_{min}=14 \text{ cm}^3$ to $W_{max}=20,000 \text{ cm}^3$. With Roundo®, expect nothing but the best in quality, durability, and innovation.

Boldrini Dishing Line - Leader for Over a Century

Beyond their exceptional quality and performance, BOLDRINI's dishing lines offer a significant advantage: cost-efficiency. They consistently meet the production demands of the world's leading manufacturers of dished heads.

FARO Technologies Inc

Booth 1043

FARO® Vantage Max Laser Tracker

Vantage Max offers 3D measurement up to 80 meters and enables you to inspect large parts, molds, assemblies and machines. Reduce inspection cycle times by up to 75% while the optional 6Probe allows measurement of hidden areas and small features.

Gemtex Abrasives

Booth 9022

Flap Discs

Flaptec is a premium zirconia and ceramic flap disc manufactured with high-quality cloth to provide increased productivity on all metals with less downtime.

Gemflex

Gemflex is a general-purpose zirconia flap disc that provides high levels of stock removal at competitive prices. Options include a fibreglass backing with 7/8-in. arbor or 5/8-in.-11 built-in thread; a ceramic/zirconia combination disc for all metals; and private labelling is available on all specifications with a 50-piece minimum order.

Hypertherm Inc

Booth 7050

Powermax45 SYNC

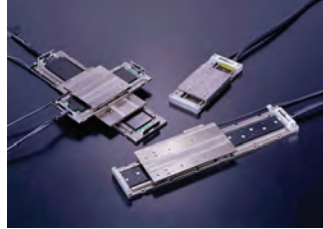

Leading the market with the next generation Powermax system, Powermax45 SYNC is designed and built to outperform and outlast anything else in its class, the Powermax SYNC is the best investment customers can make in their business.

IKO Thompson Bearings Canada Inc

Booth 2036

Nano Linear Motor Precision Stages

High attitude accuracy of 5 seconds or less. Running accuracy of less than 1 µm. Maximum thrust of 25N. Stroke lengths from 25 to 65 millimeters. Operation monitoring via PC. Communication via EtherCAT, SSCNET III/H and MECHATROLINK

Jordahl Canada

Booth 9051

BRUTE 2.2

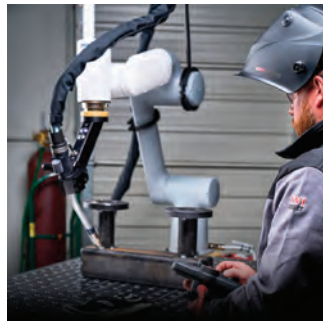

The redesigned Brute Pin Welder has a capability to weld 10-14 GA weld pins and Cup Head Pins or threaded CD studs up to 3/16". Lightweight with fast recharge time.

Lincoln Electric

Booth 10008

Cobot app simplifies welding

The Cooper App, exclusive to the company's Cooper welding cobots, makes welding simple enough for use to address skilled labour shortages, says the company. The welding app helps to get people welding in minutes with its

straightforward programming. This industrial entry-level automation machine is powered by the Power Wave R450.

Hyperfill

HyperFill is the company's twin-wire MIG system that takes high-deposition welding to the next level. It provides a productivity increase compared to 12 in. of 5/16-in. weld made with single wire. Twin-wire MIG runs on a standard Power Wave setup with a single power source, a single wire feeder, and a single gun tip.

SuperGlaze 5183 & 5356 Plus

The SuperGlaze 5183 and 5356 Plus spooled aluminum wire, delivers arc stability and weld performance with easy puddle control and optimal feeding, the company reports. The Gem-Pak bulk packaging system is a proprietary tangle-free system for the SuperGlaze line of aluminum wire. It features a unique core structure and glass gems that are weighted based on alloy and wire diameter, which lay on top of the wire as it unreels during use.

MaintainX

Booth 7043

Asset Health Insights

Asset Health Insights enables you to quickly identify the machines that cause the most unplanned downtime and cost the most to maintain. This information helps you to make data-driven decisions on where to prioritize work and plan capital expenditures.

Global Parts Management

Global Parts Management drives economies of scale and reduces downtime by allowing you to view and share your parts inventory across all your facilities.

Resource Planning

Optimize your resources, balance workloads, and get real-time labor insights for each team member—all on one screen. Have it integrated into your maintenance management workflows, creating a streamlined connection between your data, assets, and teams.

Vendor Management

Easily share work and collaborate with vendors from MaintainX. And, with our intuitive vendor experience, they can easily access the details they need to get the job done, helping you drive efficiency without giving them access to your account.

Mascoutech Inc

Booth 9050

130220 BEVELLING ELECTRIC TOOL

Designed for heavy-duty beveling up to a depth of 12mm and radius work up to 8mm, the Karnasch electric machines are versatile, compact and powerful, offering consistently high quality cutting with minimal physical effort.

Mid Atlantic Machinery

Booth 5067

FINISHLINE Oxy 2550 5D

New to the FINISHLINE family of finishing solutions is the compact and versatile OXY 2550 5D. Rapid change over for deburring, edge rounding, oxide removal and deslagging with quick release tools.

Mossini SpA

Booth 8042

Mechanical LINK DRIVE press with Automation

Mossini SpA can satisfy all customer requirements with turnkey presses/lines/plants, designed, conceived, developed and manufactured on the

basis of technical, production and economic specifications of the customer.

Nederman Canada Ltd

Booth 9005

Nederman SAVE

Nederman SAVE enhances dust collector performance and optimizes industrial air filtration through intelligent airflow control, resulting in significant energy savings, reduces the risk of fire and explosion, and minimizes maintenance time.

Nemx Skilled Trades

Booth 5073

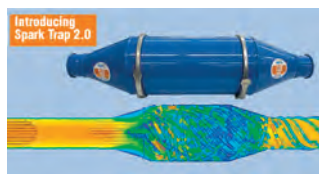

High Wear Polyurethane Coating

A direct to base high wear solution for high wear points in material handling systems or lines.

Nordfab Ducting

Booth 1030

Nordfab® In-line Spark Trap 2.0

Using flow design analysis technology, Nordfab has updated its Spark Trap to more effectively quench sparks from processes such as welding or grinding, reducing fire risks in a dust collection system.

Replacement Brush Tables

Booth 1026

Brush Conveyors

Our modular brush conveyor belts can transport a wide variety of materials safely while preventing scratching and denting. Direct replacement of your conveyor belts are available as well as customized options to enhance the performance of your machine.

AMADA Consumables

AMADA button and tooling brush are always in stock and can ship same day. Station brush available for A through E turret stations. Reduce damage during the forming process

Salvagnini Consumables

Salvagnini button and tooling brush are always in stock and can ship same day.

Salvagnini Brush Panels

Our OEM-quality turret and panel bender brush panels have been designed to meet and exceed industry standards. We have an extensive catalog of OEM parts and can lookup parts using the OEM part numbers

RSM Machinery Co Ltd

Booth 13037

Fastener Insertion Machine

The Fastener Insertion Machine is a new type of riveting equipment developed based on the cold rolling principle. It refers to mechanical equipment that can rivet items together with fasteners.

Sames

Booth 8060

Sames Inocoat Manual Powder Systems

New Sames Inocoat Manual Powder Coatings Systems

Suretorq Inc

Booth 1054

Impact Quick Change Bit Holder

Meet our effortless one-hand releasing quick-change bit holder! Simply insert the bit and it's locked by a firm grip. Easily operate with just one hand to release and switch your bits. We have lengths between 2-9/16", 6" and 12" for long extension!

2024 NEW PRODUCTS

Tecoi

Booth 8001

Tecoi THOR

A Tecoi THOR (TECOI Hyper Operative Range) double-gantry plasma table with machining capabilities is ideal for steel mills and service centres. It makes it possible for a shop to produce complex parts with bevels, chamfers, holes, and threads in thick plate.

Therma-Tron-X Inc

Booth 8050

ACC®

The ACC® consists of carriers that provide reliable and consistent point-to-point movement for everything from small parts to heavy parts. They are battery-powered, individually programmed carriers that run wirelessly on an overhead I-Beam without chain.

SST®

Performs high-volume finishing operations utilizing a fraction of the space compared to conventional monorail systems. Components index

along low-maintenance slide rails, load bars ascend and descend simultaneously into and out of the processing tanks.

Monorail

Perfect for high-volume production, TTX monorail systems are adaptable to different line speeds. Our engineers collaborate closely with clients, assessing plant space, part specifications, coating needs, and production capacities.

Advanced Water Recovery

TTX Environmental's Advanced Water Recovery process includes technologies to recycle cleaners, neutralize acids and alkalis, precipitate metals, detackify paints, clarify output water, and concentrate solids for disposal.

Trotec Laser Canada

Booth 7077

Speedy 50

With Speedy 50 Trotec now offers easy to use and safe laser machine at smallest footprint. With its work area of up to 457 x 305 mm (18 x 12 in) it is clearly designed for professional use with focusing on productivity, usability and flexibility.

TRUMPF

Booth 3001

Flex Cell

The new Flex Cell offers highly efficient bending in combination with the TruBend 7050 press brake. In just a few steps, operators can dock the mobile robot cell on the bending machine and operate it automatically.

Wire Wizard Welding Products

Booth 9056

PowerBall Robotic MIG Torches

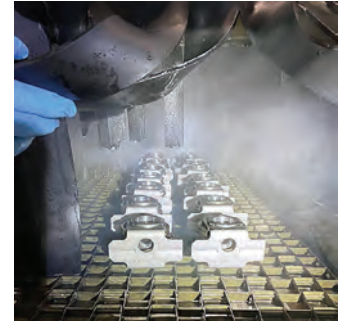

PowerBall® Robotic MIG Torches are engineered to provide maximum conductivity with increased consumable life. The innovative design provides a higher amperage output than traditional torches, resulting in a high performance, energy efficient torch.

ZERUST Corrosion & Cleaning Solutions

Booth 7041

AxxaWash™ Industrial Cleaners & Degreasers

ZERUST® AxxaWash™ features low-foam, mild alkaline/neutral cleaners/degreasers. Tailored for specific alloys, soils, and application methods, they remove hydrocarbon soils and provide short-term rust protection.

“THE MITSUBISHI LASER IS OUR *WORKHORSE* AT OLYMPIC STEEL”

Si Cha
Olympic Steel

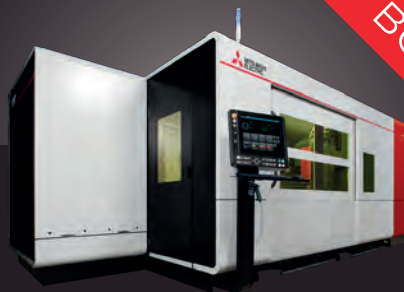

Plant Manager
Fabrication Division
Buford, Georgia

Scan to learn more

With the latest in artificial intelligence (AI) and gas reduction technology, the new GX-F ADVANCED Series of two-dimensional fiber lasers delivers more power while using less nitrogen.

Artificial intelligence is a branch of computer science that automates intelligent behavior and machine learning. This means the machine itself can learn from data and adjust performance without human intervention.

Pursuing Excellence, Fabricating Success

Visit TRUMPF at FABTECH Canada

TRUMPF continuously develops and refines technologies that enable our customers to pursue excellence in their business. Stop by the TRUMPF booth at FABTECH Canada to see our latest products developed to enable your fabricating success. The TruLaser 5030 fiber with our 24kW laser features high power with finesse thanks to unparalleled smart functions. The TruArc Weld 1000 welds without teaching with the innovation of Smart Seam Tracking. We will also introduce the new TruBend 7050 with Flex Cell, which transforms from manual to robotic bending in a few steps. Industry-leading services, software and power tools complete the display. Stop by booth 3001 to see how pursuing excellence will fabricate your success.
