LIVLOTS

Manufacturing DX Solutions

Discover LIVLOTS, our advanced manufacturing DX platform that gives you real-time visibility and centralized control of your production floor. Seamlessly integrated with AMADA's VPSS 4ie software suite, LIVLOTS helps you monitor operations, track performance, and make proactive decisions that improve uptime and throughput.

HRB 8025 + CR010B

Experience flexible robotic bending with the AMADA HRB 8025 paired with the AMADA CR010B Cobot. Automate repetitive small-part bending while retaining the ability to switch back to manual operation with minimal changeover.

EML 2515 AJ

Combining high-speed fiber laser cutting with precision punching and forming in one automated platform. Reduce handling, save floor space, and produce complex parts in a single setup.

WELCOME TO FABTECH CANADA 2026

FABTECH Canada provides a unique platform for hundreds of suppliers and thousands of customers dedicated to advancing the metal forming, fabricating, welding and finishing industries to come together under one roof and learn about new products and solutions, attend education sessions and network with industry peers.

On-site Registration

On-site registration is located in the Pavilion inside Exhibit Hall D. Anyone who will be attending the exposition MUST register to receive a badge. Admission to the exposition is free for SME, FMA, AWS, PMA and CCAI members and \$50 for non-members. No one under the age of 16 will be admitted and proof of age may be required.

Registration Hours

Monday, June 8	8:00 AM – 5:00 PM
Tuesday, June 9	7:30 AM – 4:00 PM
Wednesday, June 10	7:30 AM – 5:00 PM
Thursday, June 11	7:30 AM – 2:00 PM

Show Hours

Tuesday, June 9	10:00 AM – 5:00 PM
Wednesday, June 10	10:00 AM – 6:00 PM
Thursday, June 11	10:00 AM – 4:00 PM

About the Event Partners

The FABTECH Canada Event Partners include five leading industry associations; SME, the Fabricators and Manufacturers Association, (FMA), the American Welding Society (AWS), the Precision Metalforming Associations (PMA), and the Chemical Coaters Association International (CCAI).

Membership information can be obtained in the booth of the association or by contacting the association directly.

ABOUT THE SHOW

EVENT SERVICES

ATMs

There is an ATM located in the lobby of the South Building. There is also one located in the variety store beside Harvey's restaurant in the plaza out front of the South Building.

Badge Corrections

Anyone who will need changes to an exposition badge can go to registration located in the Pavilion inside Exhibit Hall D.

Badge Pick Up

Pre-registered attendees can pick up their show badge at an ALREADY REGISTERED counter in the Registration Area located in the Pavilion inside Exhibit Hall D.

Baggage Check/Coat Check

Located across from Booth 1000.

First Aid

Located in the West Side Main Lobby.

Show Management Office

The Show Management Office is located in room Pinsent 1.

Hours of Operation:

Tuesday, June 9.....8:00 AM – 5:00 PM
Wednesday, June 108:00 AM – 6:00 PM
Thursday, June 118:00 AM – 3:00 PM

VIP Lounge – Sponsored By:

The VIP Lounge located in room Waxman is open during show hours to those individuals that have VIP status indicated on their badge.

650 Dixon Rd | Etobicoke, ON | M9W 1J1, Canada

Media Centre

The Media Centre is located in room Waxman 3 during show hours to those individuals that have Press indicated on their badge.

Parking

Parking is currently free of charge. TCC reserves the right to change this policy, without notice, and charge for parking.

GO Transit

GO provides bus service to the Toronto Congress Centre via the Brampton bus service. Please call 1888 GET ON GO for information or visit gotransit.com for schedules.

Thank You to Our Industry Supporters

BLM GROUP

Discover what's possible

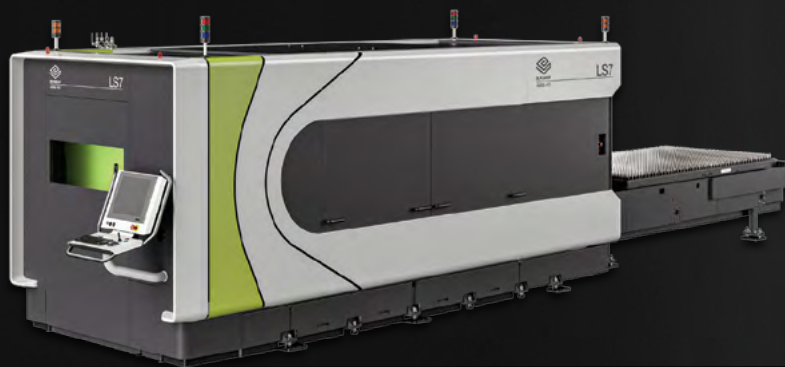

Booth #7001

Together. We are tube. And more!

From industry-leading tube lasers and benders to high-performance sheet lasers and press brake systems, BLM GROUP delivers more than machines. We bring together automation, software, and application expertise to create fully integrated production solutions—backed by proactive training, responsive service, and ongoing support to keep your operation performing at its best.

Smarter software. Seamless connectivity.
Systems engineered to work together—
streamlining production at every stage.

One partner. More possibilities.

NETWORKING and SPECIAL EVENTS

TUESDAY, JUNE 9

KEYNOTE PRESENTATION | 9:00 – 10:00 AM

IAN JOHNSON, Founder, Digital Lug, and Host of Discovery Channel's Build for Off Road

Fabrication Meets Modern Media; What Owners Need to Know to Stay Competitive

In today's fabrication and manufacturing environment, brand awareness is no longer just a marketing function; it is a core

driver of business growth. As buyers, partners, and talent increasingly engage through digital channels, fabrication companies must rethink how they position their brand to remain competitive and profitable.

In this keynote, Ian will explore how fabrication brands can navigate the rapidly evolving world of new media. He will discuss how companies can move beyond traditional outlets such as magazines and television and instead leverage digital assets, social media platforms, influencer marketing, and streaming content. The focus will be on how these channels directly support essential business objectives, including driving sales conversations, strengthening customer trust, improving recruitment, and increasing overall market visibility.

Attendees will gain practical insights into aligning media strategies with business goals, allocating marketing resources more effectively, and measuring the real business impact of brand awareness in a digital-first landscape. This session is designed to help fabrication leaders make more informed media decisions that contribute to long-term growth and profitability.

PANEL DISCUSSION | 1:30 – 2:30 PM

AI-Driven Automation: Transforming Custom Metal Forming & Fabrication in Toronto

Artificial Intelligence is no longer a future concept—it's reshaping the metal forming and fabrication industry today. This panel brings together industry leaders and technology innovators to explore how AI-driven automation is revolutionizing custom metal forming and fabrication in Toronto.

Learn how local small, medium, and large manufacturers are leveraging AI to reduce downtime, improve precision, and stay competitive in a rapidly evolving Industry 4.0 landscape.

MODERATOR:

Ian Johnson

Founder and Host of Digital Lug

Helen Papachronis

Director, Project Development, NGEN

Greta Cutulenco

CEO & Co-Founder, Acerta Analytics Solutions

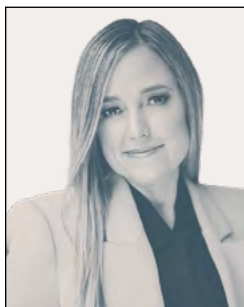

Sony Pauly

Senior Manager of Presales, Siemens

WEDNESDAY, JUNE 10

KEYNOTE PRESENTATION | 9:00 – 10:00 AM

AMBER MAC, Host of The AmberMac Show podcast on SiriusXM

The New AI Power Shift: Risks, Rewards, & Readiness for 2027 & Beyond

A new AI power shift is underway, reshaping how we work, lead, and compete. The real opportunity isn't just

adopting AI, but ensuring more people are empowered to participate in this transformation rather than being left behind. In this keynote, Amber Mac guides audiences through the risks, rewards, and readiness required to navigate this AI power shift with confidence. Drawing on two decades of experience, Amber provides leaders with a practical blueprint for making smarter decisions, building resilient teams, and leading responsibly in an AI-driven future.

WOMEN OF FABTECH | 11:30 AM - 1:00 PM

SIERRA MERCER, Mining Sector Manager for the Critical Industrial Technologies (CIT)

Join Sierra Mercer for an inspiring keynote celebrating the impact of women in manufacturing and fabrication. Drawing on her background in mining and her work with the Ontario Centre of Innovation, she reflects on the

shared challenges and opportunities shaping both sectors, and the potential of cross-sector thinking to spark new ideas and accelerate innovation. Through this lens, Sierra explores leadership, career growth, and the importance of diverse perspectives as a young woman in a male-dominated field—encouraging attendees to rethink what opportunity looks like and to see how greater alignment across industries can unlock faster, more meaningful progress in technological innovation. **Price: \$25**

PANEL DISCUSSION | 1:30 - 2:30 PM

State of the Fabrication Industry: Innovation, Challenges, and the Road Ahead

The fabrication industry is at a pivotal moment, driven by technological advancements, sustainability demands, and global supply chain shifts. This panel brings together leading experts to discuss the current state of fabrication in Canada, emerging trends, and strategies for staying competitive in a rapidly evolving market. Attendees will gain insights into the future outlook for fabrication.

MODERATOR:
Rob Coleman
Editor, Canadian Fabricating & Welding

Zoran Radonjic
P. Eng Ontario Structural Steel Fabrication Assoc.

Nick Drake
VP of Corp. Operations, Gullco International

Michael Rajk
General Manager, Wilson Tool Canada

SHOW FLOOR RECEPTION | 4:00 - 6:00 PM

Join us for a reception on the show floor to connect, unwind, and make the most of your event experience. Surrounded by the latest innovations in metal forming, fabricating, welding, and finishing, this reception offers a relaxed and engaging environment to network with colleagues, peers, and industry leaders.

THURSDAY, JUNE 11 Sponsored by cwbgroup

KEYNOTE PRESENTATION | 9:00 - 10:00 AM

DALE MALCOLM, VP Strategy, IRCO Automation

Lessons to Learn from the Evolution of Welding Automation in Canada

Welding automation receives a tremendous amount of attention in today's manufacturing landscape, yet its evaluation and adoption are

far from new. The welding industry has implemented and refined automation technologies for decades. By examining the history and evolution of welding automation, this keynote explores the lessons learned and how they can guide smarter, more effective automation decisions today and in the future.

PANEL DISCUSSION | 11:30 AM - 12:30 PM

Built to Last: Mentorship in the Skilled Trades

Skilled trades careers are built on precision, discipline, and experience passed from one set of hands to the next. Mentorship should be no different. This panel explores how intentional mentorship programs can strengthen recruitment, improve retention, and develop leadership within the skilled trades, particularly for women navigating traditionally male-dominated environments. Beyond informal guidance, we will examine what makes mentorship sustainable, measurable, and impactful over time. Attendees will leave with actionable insights to design or refine mentorship initiatives that are not just well-intentioned but built to endure.

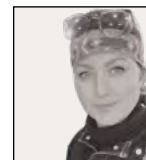

MODERATOR:
Daniela Torelli
Membership Services Lead, CWB Assoc.

Katherine Vaillancourt
Director, Indirect Procurement, Samuel, Son & Co.

Michelle Murray
Director of Operations, HIEC-Apprenticesearch.com

Kayla Vander Molen
Pre-Apprenticeship Instructor, Int'l Brotherhood of Boilermakers

Samara Simpson
SMART Local 285 Organizer and Director of Communications for Women on Site

NEMX

SKILLED TRADES

When the Job Needs to Be Done Right, Call NEMX.

Specialist in Millwrighting, Fabrication, Rigging and Welding

At NEMX Skilled Trades, we deliver practical solutions for complex industrial work.

From millwrighting and equipment installations to custom fabrication and certified welding, our experienced team supports projects across different industries.

With both shop fabrication and field service capabilities, we provide reliable skilled trades support that keeps your operation moving.

Services

Millwrighting

- ◆ Equipment installation & relocation
- ◆ Production line upgrades
- ◆ Conveyor systems, pumps, gearboxes & drive systems
- ◆ Maintenance & Maintenance Coverage
- ◆ Equipment Building

Certified Welding

- ◆ CWB certified welding services
- ◆ Mobile welding support
- ◆ Industrial repairs and fabrication

Fabrication

- ◆ Structural steel fabrication
- ◆ Custom fabrication
- ◆ Platforms, walkways, stairs & railings

High-Wear Coating

- ◆ Polyurethane wear liners
- ◆ Preventative maintenance
- ◆ Machinery rebuilding & upgrades

Why Companies Choose NEMX

- ◆ Safety-first culture
- ◆ Experienced skilled trades professionals
- ◆ Cost-effective, practical solutions
- ◆ Fabrication + field service capabilities
- ◆ Reliable project delivery — on time and on budget

Looking for a skilled trade partner
to compliment your needs?
Contact NEMX Skilled Trades today.

Access Machinery

Booth 8001

New Laser Model DURMA HDFN

HDFN is the new generation of DURMA Laser line laser systems. Model is available in 5x10, 6x12 and 6x18 dual shuttle table. Features new ergonomic shuttle table design, built in controller with fully integrated HMI.

Air Liquide Canada

Booth 11040

BLUESHIELD

We offer a wide selection of shielding gases, from pure gases (argon, helium, carbon dioxide) to argon-based mixtures, in different gas supply sizes. Whether you're welding carbon steel, stainless steel, or aluminum, thin or thick, our ARCAL and Blueshield gas product lines will make your life easier and safer.

All Metals & Forge Group

Booth 2038

Superior quality custom open-die forged parts and seamless rolled rings.

A leading manufacturer of open-die forged parts, serving critical industries that demand strength, precision, and reliability.

Brilliance Group Corporation Limited

Booth 1023

Sheet metal fabrication

Sheet metal fabrication is a comprehensive manufacturing process that shapes thin metal sheets (typically steel, aluminum, stainless steel, copper, etc.)

CK Worldwide

Booth 9050

MT375 TIG Welder with Steady Grip Foot Pedal

CK Worldwide's latest AC/DC TIG system with 375 amps, dual voltage, pulse control, water cooling, and the Steady Grip foot pedal.

Cougartron

Booth 12043

Cougartron FURY 200XF Weld Cleaner

Introducing the Cougartron FURY 200XF Weld Cleaner, up to 50% faster cleaning and passivation, with integrated fluid feed for safer, easier operation.

Dongguan Fuzhan Electronic Technology Co Ltd

Booth 1037

Customized metal fabrication and stamping parts

Precision customized aluminum stainless steel laser cutting sheet metal fabrication and stamping parts.

DuBois Chemicals

Booth 7070

DURATEC XF

DuraTEC XF is a next-generation zirconium pretreatment offering paint adhesion and corrosion resistance on steel, galvanized steel, and aluminum without phosphates or fluorides.

Exocor

Booth 11005

Executive PLUS 7018-1

Executive PLUS 7018-1 provides a smooth and stable arc that produces little to no spatter and provides excellent arc starting and re-strike capability.

Extreme Abrasives

Booth 9058

Unidirectional Double-Sided Flap Discs

Foshan Huibaisheng Laser Technology Co Ltd

Booth 8038

M3 Fully-enclosed Single Platform Laser Cutting Machine

It is professionally used for cutting various medium and thin metal sheets, and is a high-quality cutter for carbon steel sheets, stainless steel sheets, aluminum alloy sheets, welded sheets, electrolytic sheets, silicon steel, titanium alloys, aluminized zinc sheets and other metal materials.

GEKA USA

Booth 1060

Laser Cutting for Structural Steel | GCS S

GCS S is a fiber laser cutting system designed for the efficient processing of structural steel profiles, including beams, angles and tubes. The system delivers high cutting precision, clean edges and consistent quality for demanding steel fabrication environments. Available in different machine sizes and laser power options of up to 20 kW, GCS S can be integrated with automated loading and unloading systems to improve productivity and reduce manual handling.

Gemtex Abrasives

Booth 9022

Surface Conditioning Flap Discs

Surface conditioning flap discs are ideal for applications requiring a refined finish, such as final preparation before painting or coating, or aesthetic blending of welds. They excel at providing a smooth, consistent finish while minimizing the risk of damage to the parent metal.

Gweike Tech Co Ltd

Booth 7060

Fiber Laser Cutting Machine LF4020GA

Fully enclosed design, matrix exhaust system efficiently filters smoke and dust. 15-second quick exchange enhances productivity and cuts labor cost.

Huayan Robotics

Booth 11050

S50 Heavy Payload Robot

S Heavy Payload Robot with high payloads of 50KG and long arm reach of 2000mm. It can be widely used in palletizing, assembly and heavy load handling applications.

IKO Thompson Bearings Canada Inc

Booth 2030

Liquid Crystal Lubrication: An Advanced Solution for Vacuum and Cleanroom A

Innovation, Know-how & Originality

This lubricant bridges the gap between high-performance and low outgassing, eliminating the trade-offs engineers have faced with conventional lubricants.

Jiangsu Fortune Meeting Industrial Development Co Ltd

Booth 8173

Waterjet Cutting Garnet

Rock Red Garnet Sand 80 Mesh, with its superior properties like hardness, durability, and low dust generation, is a highly efficient abrasive material.

Jinan Acme CNC Equipment Co Ltd

Booth 7027

Side-Mounted Laser Tube Cutting Machine LT-12036TKA

Ideal solution for medium-sized pipe and profile projects. Heavy-duty machine tool type bed design, segmented welded, laser undercutting.

Jinhua Ensure New-Energy Technology Co Ltd

Booth 9060

Rechargeable Battery-Powered Inverter Welder 150A

LESTAR AK-330 Cordless Battery Powered Inverter Arc Welder Weight only 11.50kgs, max output 150A, built-in 865Wh ternary li-ion battery pack, ideal for those jobs where portability is essentials, and power is not always available.

Kent Corporation

Booth 5067

Termomacchine High Frequency Welder

Our high-frequency welders can power up to 800kW in the same chassis, while providing substantial power savings to your tube mill production line.

Ketec Precision Tooling LLC

Booth 7023

KETEC KU TOOLING

Ketec KU tooling is a quick adjust and long life time tool. Tool-free punch length adjustment is achieved by pressing the quick adjust button.

Keyence Canada Inc

Booth 2050

Wide Area CMM

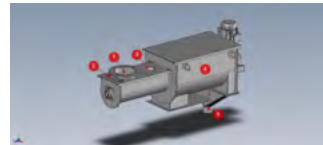

Portable and handheld 3D scanner and dimensional probing system for fast, accurate measurement of large parts with no fixtures required.

Kresco Solutions Inc.

Booth 8051

Media Recovery System for Sandblast Booths

Introducing the new Self-Cleaning Rotary Sieve, exclusive by Kresco! Keep up with high media recovery volume and clean you media

KUKA Robotics Canada

Booth 12008

Arc Cellerate

KUKA Pre-Engineered Robotic Welding Systems are designed to offer an economical and efficient solution for high-mix/low-volume applications. These systems come fully equipped to handle various welding tasks

Lantek

Booth 3067

v45 Software Solutions for Sheet Metal Operations

Lantek, through its new Lantek Canada headquarters, will showcase its Lantek v45 software suite which contains all new features developed to digitally transform sheet metal operations.

Lantek representatives will demonstrate the newest improvements in v.45, all of which focus on increased process automation, smoother connections between different areas of a workshop, and improved management of production information. These developments respond to the ongoing shift among manufacturers towards more connected working environments, where coordination between design, manufacturing and management is key to operational success. To that end, the most significant introduction is KAI, a cross-functional AI assistant that supports technicians in improving daily processes by analyzing data and suggesting efficient strategies. Additionally, v45 introduces enhancements in bending, palletizing, 3D assembly, nesting and production management, with increased connectivity between modules.

LPI Lift Systems

Booth 8059

VL Series Powder Coating Vestibule Area Lift

The VL Series is a mast-based, pneumatically powered vertical lift designed to provide safe and efficient operator access in powder coating and industrial finishing environments. Engineered for single-axis vertical travel, the platform is intrinsically safe and well suited for manual coating applications in booth vestibules and staging areas where consistent positioning and compact footprint are critical.

2026 NEW PRODUCTS

Marktech Inc

Booth 2042

WEISS

Reliable mechatronic drive modules and subsystems for rotation, indexing, and positioning

Mascoutech Inc

Booth 9054

Jepson Power Dry Cutter Saws for Steel

We stand for constant improvement of the cold cutting process for tubes and profiles of steel, stainless steel, aluminum, non-ferrous metals, as well as composite materials. All in the context of respect for the environment.

Mitsubishi Laser, Press Brake & Automation/MC Machinery Systems Inc

Booth 3019

RIBS (Robotically Integrated Bending Solutions)

Featuring the Acieta RIBS robotic solution and our Mitsubishi Diamond BB Series of electric press brakes, this advanced bending system eliminates manual bottlenecks while increasing productivity, consistency, and safety. The RIBS cell is ideal for small to large parts and mid- to high-volume production environments ready to automate bending with precision and repeatability.

MC Finishing Solutions - deburring, grinding, edge rounding, and polishing

Finishing Solutions – From Raw Edges to Production-Ready Parts

MC Machinery's Finishing Solutions deliver fully automated deburring, grinding, edge rounding, and polishing—transforming raw cut parts into consistent, high-quality finished components. Designed for steel, stainless steel, aluminum, and advanced alloys, these systems eliminate manual bottlenecks while improving surface quality and repeatability.

Diamond BB Series - Electric Press Brakes

Diamond BB Series – Electric Precision Bending, Simplified

The Diamond BB Series delivers fast, accurate, and cost-efficient bending in a compact, all-electric platform—built for shops that demand precision without complexity. Powered by an AC servo motor and high-speed ball screw drive, the BB Series achieves exceptional repeatability (± 0.001 mm) and industry-leading cycle times, ensuring consistent, high-quality results part after part.

Diamond BH Series - Hybrid Press Brakes

Diamond BH Series – Hybrid Power. Maximum Throughput.

The Diamond BH Series combines the speed of electric technology with the power of hydraulics—delivering unmatched performance in a high-speed, dual-drive hybrid press brake. Designed for demanding production environments, this system achieves lightning-fast cycle times, micron-level accuracy, and exceptional repeatability, making complex bending operations faster, easier, and more consistent.

GXL-F Series - Large Format Fiber Laser

GXL-F Series – Large-Format Power. Maximum Versatility.

The GXL-F Series is built for fabricators who think bigger—delivering high-speed, high-precision fiber laser cutting across large-format applications without sacrificing efficiency. With expansive bed sizes up to 10' x 26' and the ability to process multiple sheets simultaneously, the GXL-F maximizes throughput for high-volume production environments.

GX-F ADVANCED Series - Intelligent Fiber Laser Cutting

The GX-F ADVANCED Series brings next-level intelligence to fiber laser cutting—combining high-speed performance with Mitsubishi's advanced AI technology to deliver consistent, optimized results with minimal operator input. Designed for modern fabrication environments, this system continuously monitors the

cutting process and automatically adjusts parameters in real time, ensuring peak performance across a wide range of materials and thicknesses.

remote360® - Remote Machine Monitoring

remote360® – Real-Time Insight. Total Control.

Remote360® is MC Machinery's cloud-based remote monitoring platform—designed to give you complete visibility into your operation, anytime, anywhere. By capturing and analyzing real-time machine data, remote360 empowers manufacturers to maximize uptime, optimize performance, and make smarter, data-driven decisions across their entire shop floor.

Laser Consumables

Laser Consumables – Precision Parts That Power Performance

MC Machinery's Laser Consumables are engineered to keep your cutting operation running at peak performance. From nozzles and lenses to protective windows and optical components, every part is designed to maximize machine efficiency, improve cut quality, and extend equipment life.

Modula

Booth 2041

Modula Lift

With a throughput of up to 130 trays per hour and a tray payload capacity of up to 2,200 lbs, Modula Lift is a workhorse of a machine for all possible environments and industries.

Nederman Canada Ltd

Booth 9005

Fume Eliminator (FE) GoMax

FE GoMax is a smart on-torch fume extractor for two welders. Mobile, self-cleaning, captures fumes at source, auto-adjusts airflow for safer workspaces.

OMAX Waterjets

Booth 7050

MAXIEM X Series

The latest evolution in waterjet cutting technology, OMAX® MAXIEM® X Series JetMachining Center, cuts complex parts out of most materials, including metal, plastic, glass, ceramic, stone and composites and generates surface finishes that often eliminate the need for secondary machining.

Now with enhanced features, the MAXIEM brings superior performance, versatility and productivity at an affordable price. It is engineered for shops that require intelligent performance. Every detail has been reimagined to deliver a cutting experience that's smarter, and more intuitive.

With expanded customization and accessory configurations, MAXIEM adapts to your workflow and grows with your business. The MAXIEM

is supported by expert factory training and a global network of technical support specialists that make it easy for seasoned and novice operators alike to benefit from the latest advances in abrasive waterjet technology.

Otinus Corp

Booth 1004

Tube Laser Cutter

Otinus Fiber Laser Tube Cutter is a high-precision CNC machine designed for efficient cutting of steel, stainless steel, and other metal tubes and profiles. Powered by fiber laser technology, it delivers fast cutting speeds, clean edges, and excellent accuracy for industrial applications. The machine is built for reliable 24/7 production and is ideal for manufacturers seeking high productivity, reduced material waste, and consistent cutting quality.

Profiilikeskus Oy

Booth 4071

Snap Lock Roll former

Our width adjustable Snap lock rollformer adds flexibility and sortiment to your roof product range.

Rangerman

Booth 7055

Rangerman AGV RM10

Rangerman is a 1,000-kg capacity AGV for SMEs: simple, affordable, no programming required. 100% designed and manufactured in Canada by a 50 years old family-owned company.

Rob Tools

Booth 9064

Flexmig 360

Attach in seconds, weld anywhere. The Flexmig 360 is a universal, 360° flexible MIG extension built for precision in hard-to-reach areas.

Rosler Metal Finishing USA LLC

Booth 7065

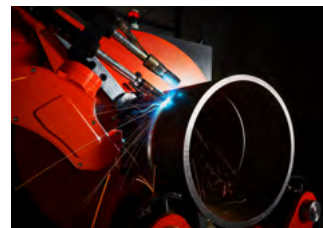

Multi-Tumbler RMT made in USA

Now produced in the USA, the RMT's special drum design guarantees optimal and gentle mixing of the work pieces and consistent shot blasting results.

Rotoweld by Tecnar

Booth 11029

Rotoweld 3.0

Rotoweld 3.0 redefines precision welding with unmatched speed, accuracy, and reliability. Designed for modern manufacturing, it delivers consistent, high-quality welds while minimizing material waste and operator intervention. With advanced automation, real-time monitoring, and intuitive controls, Rotoweld 3.0 empowers manufacturers to increase productivity, ensure repeatable results, and stay ahead in competitive markets. It's not just welding—it's intelligent process control in action.

Spark & Co

Booth 6068

Sintrax Laser Cutting & Deburring Machines

SINTRAX offers a complete range of fiber laser cutting machines (2D, 3D, and tube) and automated deburring machines. MAX and IPG laser sources, Raytools autofocus heads, and Yaskawa servo motors for cutting. Single-pass deburring, edge rounding, and surface finishing for parts coming off laser, plasma, or waterjet. Designed for industrial production: high throughput, consistent quality, and low maintenance.

Spazzolplastica North America LLC

Booth 11057

Reusable Plastic Drums for Welding Wire

KoniK: the first certified plastic welding drum comes from Spazzolplastica. It promotes the circular economy thanks to a complete reuse cycle that limits the release of new waste into the planet. Moreover, the use of a single type of plastic facilitates its disposal.

SprayTech/Junair

Booth 8067

Spray Tech's Zero Discharge systems deliver efficient, sustainable water management, improving operational performance while supporting environmental responsibility.

2026 NEW PRODUCTS

Taizhou Huangyan Juntian Die and Mould Co Ltd

Booth 2078

Automotive Cold Stamping Die

The production form of dies can meet the requirements of Tandem, Transfer, Prog and other methods.

Therma-Tron-X Inc

Booth 8050

SST® (SlideRail Square Transfer)

The SST® system revolutionizes finishing, saves space, boosts load density.

Tianjin Sunke Digital Control Technology Co LTD

Booth 12059

SAI6 Next-Gen Controller with Pressure Feedback

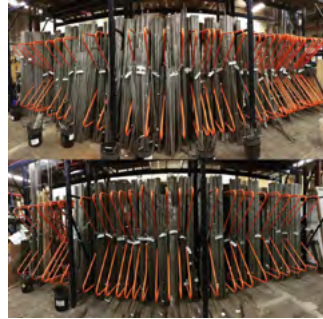

- Supports Anybus communication.
- Integrated servo control of force, current, and time.
- Multiple I/O for external sensor signal acquisition.
- Built-in patented weld quality evaluation system.
- Application: Civil aviation aluminum welding, automotive industry, etc.

Titanium Joe Inc

Booth 8125

In-stock Titanium Inventory

We stock a very large inventory of titanium tubing, bar, sheet, plate and weld wire.

TorchRite Solutions Ltd

Booth 12038

Safe-T Torch

The Safe-T Torch™ lets operators extinguish the torch flame and stop the flow of gases to the torch within seconds, simply by releasing the trigger on the handle.

Should a torch operator be unaware of a leak, or become incapacitated for any reason, this revolutionary safeguard will prevent gases from continuously flowing into the workspace.

Tube Honing and Finishing

Booth 3085

Laser Cutting

Tube Honing & Finishing is excited to introduce our newest capability at FABTECH: advanced tube laser cutting and engraving powered by a TRUMPF Tube Laser system.

This next-generation technology delivers exceptional speed, precision, and repeatability for everything from

rapid prototyping and short production runs to full-scale manufacturing. Our system processes round, square, and rectangular tubing up to 254 mm (10") in diameter, with material thicknesses up to 14 mm, across materials including mild steel, stainless steel, aluminum, copper, and brass.

7.3 Power Max Ceramic Fiber Disc

- Our highest performing fiber disc for carbon steel
- Maximum durability and effectiveness
- NEW 3-dimensional ceramic grain for maximum performance and efficiency
- For use on Metal and Stainless

Wintriss ISB

Booth 1058

Merlin 4000

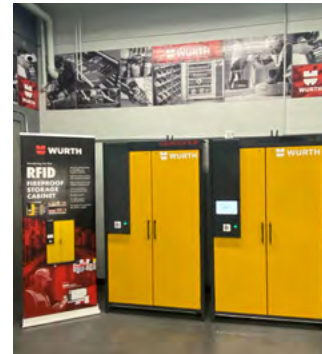

Press brakes are difficult machines to guard, simply because the part's flange profiles generally changes from step to step during the fabrication process. A standard safety light curtain can not provide protection because of these varying part profiles. Only the unique MERLIN concept, pioneered by ISB, can learn each flange profile while making your initial sample part and automatically create a window exactly the proper size required for each specific cycle. This opening may change from stroke to stroke automatically, completely determined by our processor, not your operator or set up personnel.

ZERUST Corrosion & Cleaning Solutions

Booth 8070

ZERUST® Axxanol™ A35-8030 Offers Long-Term Rust Protection with Oily Fil

ZERUST® Axxanol™ A35-8030 leaves a light oily film for reliable, long-term corrosion protection on metal surfaces during storage or shipment.

- Project Arrow is a national initiative led by the Automotive Parts Manufacturers' Association (APMA) showcasing the innovation and capabilities of Canada's automotive supply sector.
- The vehicles demonstrate how Canadian suppliers contribute cutting-edge technology, engineering, and manufacturing expertise to the future of mobility.
- Vector and Borealis represent collaborative efforts involving dozens of Canadian companies and organizations working together to highlight Canada's role in advanced vehicle development.
- Project Arrow serves as a platform to showcase Canadian automotive innovation at major industry events across Canada and internationally.
- The project highlights the strength of Canada's automotive ecosystem and the depth of expertise within the domestic supply chain.

Check out Project Arrow on the Show Floor near the FABTECH Theatre

 **FABTECH**

Innovation Without Limits

OCTOBER 21-23, 2026 | LAS VEGAS, NV

Push beyond boundaries at FABTECH 2026, North America's largest metal forming, fabricating, welding, and finishing event. Explore breakthrough technologies, connect with industry leaders, and discover solutions that redefine what's possible.

**REGISTER TODAY AT
FABTECHEXPO.COM**

Platinum Sponsors

TRUMPF

Scaling with Confidence

For over 100 years, TRUMPF has engineered technologies for the realities of modern fabrication.

Discover some of TRUMPF's latest innovations at FABTECH Canada. Visit booth 3001 to explore how you can elevate your shop with the most precise, accurate, and reliable technologies on the market.

Flexible solutions, live at the show:

- TruLaser 3040 fiber Bevel Cut Edition
- TruPunch 5000
- TruBend 3130
- TruBend 1225
